

I don't listen to any station other than K-LOVE. It is the only positive music that my community has, as far as I am concerned. I would not listen to any other station if it is displaced by an LPFM broadcaster, even another Christian station. The only reason I have not switched to XM radio is because I wouldn't be able to listen to K-LOVE. It is important enough to me that I support this station financially every month as do many others in my community.
